

# Wiper Bowl® – universelle feuchte Reinigungstücher

## Praktischer geht's nicht

Die mit einer speziellen Reinigungsflüssigkeit getränkten Tücher aus der **zetClean®** Produktreihe sind ein unentbehrlicher Garant für Sauberkeit an jedem Arbeitsplatz, in Werkstatt und Maschinenpark für nahezu alle Materialien und Untergründe. Besonders ideal für Arbeitsstätten, an denen für die Reinigung kein Wasser in unmittelbarer Nähe verfügbar ist.

Die Nasswischtücher sind lösungsmittelbeständig und silikonfrei im praktischen wiederver-schließbaren **Wiper Bowl®** Spendereimer verpackt. Dadurch trocknen die Reinigungs-substanzen nicht aus und bleiben besonders lange wirksam.

### Wiper Bowl® Polytex® 70/30

Art. 50130-012

- Polypropylentuch, in kraftvoller Isopropanol-lösung getränkt
- ohne schädliche Komplexbildner
- zur hygienischen Reinigung und Entfettung glatter Oberflächen

### Wiper Bowl® Polytex®

**zetMedica®**

# Complete line of hygiene products

# Wiper Bowl® Safe & Clean

## Dispenser system for wet disinfection and cleaning wipes – **reusable** in standard use

### Benefits:

- Reduced disinfectant consumption – the application solution can be reused for **up to 4 weeks (28 days)** or **6 weeks (42 days)** depending on the disinfectant that is used.
- Reduced workload – 60, 100 or 110 disinfections are possible depending on the size of the roll.

The tear-resistant, highly absorbent and low-lint **Multitex® Wipes** from the dispenser bucket always ensure consistently good hygienic quality. The tear-off perforation enables easy individual removal.

Fill the dispenser bucket with a ready-to-use application solution or cleaning liquid of your choice. The resealable lid prevents the soaked wet wipes from drying out and protects them from external influences such as dirt or dust.

### Clean and disinfect the bucket before reusing.

reusable after  
reconditioning

This can be done by chemothermal treatment or wiping disinfection.

### Multitex® Wipes Standard, finely perforated

Disinfection and cleaning wipes of 100 % PET, white, tear-resistant, absorbent, low-linting and individually packed

PU = 6 rolls

**100 sheets**, 30 x 32 cm • Art. 11839-00

### Multitex® Wipes Premium, smooth

Disinfection and cleaning wipes of 100 % PET, white, tear-resistant, absorbent, low-linting and individually packed

PU = 8 rolls

**60 sheets**, 30 x 32 cm • Art. 11830-02

PU = 6 rolls

**100 sheets**, 30 x 32 cm • Art. 11840-00

**110 sheets**, 24 x 32 cm • Art. 11843-00

**100 sheets**, 18 x 38 cm • Art. 11842-00

### Wiper Bowl® Safe & Clean dispenser bucket

Made of plastic, resealable and reusable

PU = 1 bucket

**square**, suitable for Art. 11830-02, 11839-00, 11840-00, 11843-00, height approx. 20 cm • Art. 60995-00

**round**, suitable for Art. 11830-02, 11839-00, 11840-00, 11842-00, 11843-00, height approx. 21 cm, ca. 21 cm Ø • Art. 60997-00

### Wall mount with lock

For dispenser bucket Art. 60997-00 • Art. 60092-01

Tests with various disinfectants at independent testing institutes were able to confirm that the use of **Multitex® Wipes** does not impair the efficacy of the disinfectant.

The disinfection performance is guaranteed even after a period of **4 weeks (28 days)** or **6 weeks (42 days)**, depending on the disinfectant that is used.

# ... now also as a disposable bucket!

## Now new for high-risk areas: **Disposable wipe dispenser system** for surface disinfection in particularly sensitive areas

In areas with an especially high risk of infection, the danger of contamination must be kept as low as possible. Therefore, reprocessed dispensing buckets should not be used in these areas. To minimise the risk of contamination during reconditioning, ZVG® also offers the time-proven **Wiper Bowl® Safe & Clean** dispenser system as a disposable version.

The wipe dispenser (bucket and lid) is discarded once all wipes have been used or after **4 weeks (28 days)** or **6 weeks (42 days)**.

**This wiper dispenser is not intended for reconditioning. Disposal of both the bucket and the lid is required for hygienic reasons.**

### Hyg Med 39. Year 2014 – Notification 9/2014:

The disinfection committee of the VAH Association for Applied Hygiene recommends not to use wipe dispenser systems that require reconditioning – with the exception of substances containing alcohol – in areas with a high risk of infection. The same applies if only the sealing units (lids) require reconditioning.

### **Multitex® Wipes Standard with disposable Wiper Bowl® Safe & Clean dispenser bucket**

Disinfection and cleaning wipes of 100 % PET, **finely perforated**, white, tear-resistant, absorbent, low-linting and individually packed.

PU = 4 disposable buckets, equipped with roll  
**100 sheets**, 30 x 32 cm • Art. 11939-00

### **Multitex® Wipes Premium with disposable Wiper Bowl® Safe & Clean dispenser bucket**

Disinfection and cleaning wipes of 100 % PET, **smooth**, white, tear-resistant, absorbent, low-linting and individually packed.

PU = 4 disposable buckets, equipped with wipes  
**100 sheets**, 30 x 32 cm • Art. 11940-00  
**110 sheets**, 24 x 32 cm • Art. 11943-00

**Wall mount with lock** • Art. 60092-01

## Highly absorbent all-purpose wipes for use in nursing care

### **Multizell® all-purpose wipes**, natural coloured

The **Multizell® wipes** are ideal for universal use in the care sector – whether for geriatric or infant care, or for cleaning soiled beds, for example after a massage. The wipes, which are made of 100 % recycled material, are low-linting, extremely absorbent and particularly wet-strengthend. The practical single-sheet removal system also allows the environmentally friendly **Multizell® wipes** to be used in a much more economical way than conventional multi-layered cellulose.

3-ply, 27 x 32 cm, PU = 1,000 wipes (20 x 50) • Art. 10440

4-ply, 27 x 32 cm, PU = 1,000 wipes (20 x 50) • Art. 10333

### **Multisoft® Air Plus**, white

These soft and highly absorbent wipes made of airlaid material (100 % cellulose) are ideal for the use in geriatric and infant care.

The robust **Multisoft® Air Plus wipes** can be wrung out and used for numerous wiping processes.

### **Non-woven cellulose wipes**

27 x 32 cm, PU = 1,000 wipes (20 x 50) • Art. 10102

### **Multitex® care wipes**, white

The durable viscose wipes are suitable to be used as cleaning and washing cloths in the hygiene sector for geriatric and infant care. Due to their high durability they are ideal for wiping off mud packs, strongly adhesive creams etc., as well as wet and dry cleaning. They are low-linting, soft, voluminous and absorbent.

### **Care wipes**

38 x 34 cm, PU = 400 wipes (10 x 40) • Art. 10149

## For emergencies, aid and rescue missions

### **Disposable blankets**

In emergency, aid and rescue missions, acting promptly is crucial.

With ZVG®'s disposable blankets, this can be guaranteed at all times.

Especially the small packaging allows easy handling to keep patients warm during transportation.

Made of PP filled with polyester, blue, packed individually

### **PU = 20 pcs. or more**

110 x 190 cm, 300 g • Art. 12730

110 x 190 cm, 400 g • Art. 12740

110 x 190 cm, 500 g • Art. 12750

small packages = easy handling

## Absorbent and moisture-proof!

### Unisan® Care bibs for adults

- Combination of tissue and PE film
- With strings for tying
- With reversible catch/crumb pocket

The bibs for adults prevent any staining of clothes during meals. The crumb pocket reliably catches any dropped food. The bibs are easy to tie and simple to use.

36 x 65 cm, PU = 500 pcs. (10 x 50) • Art. 12515

## Disposable washing gloves

### Unisan® washing gloves

Very absorbent and soft, with large opening for hand, white. Washing gloves of the **Unisan®** series **Comfort** and **Economy** are made of airlaid material. For the care of babies and patients with sensitive skin, the velvety **DeLuxe** variant made of molton nonwoven is ideal.

#### Unisan® Economy

15.5 x 23 cm, embossed, white airlaid  
type 60, PU = 1,000 pcs. (20 x 50)  
• Art. 12104

#### Unisan® Comfort

15.5 x 23 cm, embossed, white airlaid  
type 80, PU = 500 pcs. (10 x 50)  
• Art. 12103

#### Unisan® DeLuxe

15.5 x 23 cm, white needle-punched  
type 75, PU = 1,000 pcs. (20 x 50)  
• Art. 12102

### Multisoft® Care cleansing and care foam

For fast gentle cleansing and care in case of incontinence, Anus praeter ...

The skin-regenerating care product is dermatologically tested and is especially suitable for bedridden patients.

Aerosol bottle, 500 ml

PU = 6 bottles • Art. 50229-005

## zetBox® – just a pluck away

These 2-ply tissues are extra soft and kind to the skin, low-lint, absorbent and chemically neutral. **zetBox®** is ideal for universal use in the lab and doctor's office. The practical pluck box contains 150 soft tissues.

**zetBox®**

150 tissues, 21 x 22 cm, PU = 30 boxes • Art. 16515

## Antibacterial wet washing gloves

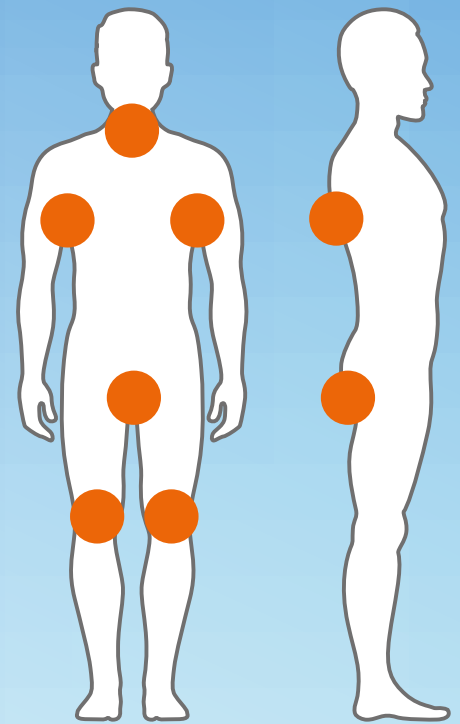

**NEW**

### Thorough patient care – hygienic and comfortable

The **zetMedica®** line from ZVG® has been expanded to include a newly developed version of the practical washing gloves. The cleaning liquid, which the new moistened washing gloves are soaked in, has an antibacterial effect. This makes the care of bedridden patients even more hygienic – especially when there is no running water available. The washing gloves are ready to use, rinsing is not necessary.

The disposable wet washing gloves allow thorough and yet gentle cleansing of the entire body. The textile-like structure of the nonwoven fabric is highly tear-resistant even when wet. The washing gloves are provided in a hygienic single package and are disposed of after use. This virtually eliminates the risk of contamination as opposed to reusable products.

- No fragrances
- pH neutral
- Easy to use
- Microwavable
- Antibacterial
- Effective against MRSA, ESBL and VRE in accordance with EN 13727 and EN 13624

**antibacterial**

### Wet washing gloves

antibacterial, white,  
approx. 22 x 15 cm,  
PU = 24 bags with 8 pcs. each  
• Art. 12108-00

## Wet washing gloves

Wet washing gloves from the **zetMedica®** line are used whenever no running water is available for the care of bedridden patients.

As an alternative to antibacterial wet washing gloves, the cleansing liquid in this version is enriched with nourishing aloe vera and vitamin e.

If necessary, the package can be warmed in a microwave (20–25 seconds at 600 watts) or in a heating cabinet. For a refreshing wash, the package can be cooled before use. Carefully open the softpack and take out a washing glove as needed.

- With aloe vera and vitamin E
- pH neutral
- Dermatologically tested
- No fragrances

### Wet washing gloves

white, approx. 22 x 15 cm,  
PU = 24 bags with 8 pcs. each  
• Art. 12106-00

## Hair washing without water!

In the care of physically limited people in care facilities or at home, often there is no direct access to running water to wash hair the conventional way. The shampoo cap from the **zetMedica®** line from ZVG® gives patients a sense of well-being: Their hair can be "washed" in bed, without water, and then styled: Voila! (no rinsing necessary)

- Nourishes and cleanses the hair without water
- Refreshes and provides moisture
- Easy to use
- Microwavable
- With aloe vera
- Dermatologically tested

### Shampoo cap

white, approx. Ø 49 cm,  
PU = 24 bags with 1 pc. each  
• Art. 12107-00

## Soft Unisan® tissues with high wet strength

... exceptionally absorbent for hygienic use

**Unisan® protective sheets** and **stretcher sheets** as well as **waterproof napkins** offer hygienic protection in areas like patient transport as well as geriatric and infant care. The risk of contamination is minimised by an impermeable film backing to protect the material underneath against soiling and spreading of germs.

### Unisan® Protect waterproof napkins

- Combination of tissue and PE film
- Water impermeable and highly absorbent
- Contamination protection

**38 x 40 cm**, PU = 1,000 (10 x 100) pcs. • Art. 12510

### Unisan® Economy protective pads

- Combination of tissue and PE film
- With PP fibre reinforcement
- 8-fold fibre reinforcement

**75 x 210 cm**, PU = 200 pcs. • Art. 12524-00

**75 x 210 cm**, PU = 100 pcs. (4 x 25) • Art. 12524-93

**75 x 175 cm**, PU = 200 pcs. • Art. 12523-00

**75 x 140 cm**, PU = 200 pcs. • Art. 12522-00

**75 x 90 cm**, PU = 400 pcs. • Art. 12521-00

### Unisan® Economy patient transport pads

- Specially designed for stretchers with a strap system
- 20-fold fibre reinforcement

**100 x 200 cm**, PU = 150 pcs. • Art. 12529-00

**100 x 210 cm**, PU = 100 pcs. (4 x 25) • Art. 12529-93

### Unisan® Standard protective pads

- Moisture stop on the side of the longitudinal edges
- 20-fold fibre reinforcement

**80 x 210 cm**, PU = 200 pcs. • Art. 12554-00

### Unisan® Standard Plus protective pads

- Moisture stop on the side of the longitudinal edges
- 48-fold fibre reinforcement

**80 x 210 cm**, PU = 100 pcs. (4 x 25) • Art. 12554-93

### Unisan® Comfort Plus protective sheets

- Combination of 2-ply tissue and PE film
- Moisture stop on the side of the longitudinal edges
- 48-fold fibre reinforcement

**80 x 210 cm**, PU = 125 pcs. • Art. 12534-00

**80 x 210 cm**, PU = 100 pcs. (4 x 25) • Art. 12534-93

**80 x 175 cm**, PU = 125 pcs. • Art. 12533-01

**80 x 140 cm**, PU = 150 pcs. • Art. 12532-00

### Unisan® waterproof rolls

- Combination of 2-ply tissue and PE film
- Water impermeable
- Excellent contamination protection for more hygiene
- Perforated

**0.5 x 150 m**, PU = 4 rolls • Art. 12425

## Hygienic and economical

### Medical rolls in tissue quality, white, 2- and 3-ply

Soft and absorbent, the material does not stick to the skin, economic usage due to perforation, approx. 50 running metres.

#### 2-ply, width 39 cm

PU = 9 rolls • Art. 12224

#### 2-ply, width 50 cm

PU = 9 rolls • Art. 12225

#### 2-ply, width 55 cm

PU = 9 rolls • Art. 12255

#### 2-ply, width 59 cm

PU = 9 rolls • Art. 12226

#### 3-ply, width 39 cm

PU = 6 rolls • Art. 12334

#### 3-ply, width 50 cm

PU = 6 rolls • Art. 12335

#### 3-ply, width 59 cm

PU = 6 rolls • Art. 12336

Also available in

100 m and 150 m rolls.

### Medical roll holder

Made of stainless steel, for stretcher and wall mounting, for **39 to 60 cm roll width**, PU = 1 pc. • Art. 60900

## Universal wipes

For effective and economical removal of all types of soiling, these ZVG® products are the top choice.

### Colourful all-purpose nonwoven cloths

For use not only in the kitchen and bathroom, but wherever large amounts of liquids have to be cleaned up quickly.

**Wipes, 38 x 38 cm**, PU = 200 cloths (20 x 10) in box

**Green** • Art. 10006-00

**Pink** • Art. 10008-00

**Yellow** • Art. 10009-00

**Blue** • Art. 10010-00

### Praktitex® Pro microfibre cloths

**40 x 40 cm, with reinforced border**, PU = 10 pcs.

**Blue** • Art. 10291-01

**Yellow** • Art. 10292-01

**Green** • Art. 10293-01

**Pink** • Art. 10294-01

## Always ready to hand

Disposable gloves of the **zetDress®** line fulfill the most stringent requirements for safety and comfort. This way you are always on the safe side.

Powder-free\*, 100 per box,  
PU = 1,000 pcs. (10 x 100)

### Vinyl gloves

**Size S (6-7)** · Art. 80558-00  
**Size M (7-8)** · Art. 80558-01  
**Size L (8-9)** · Art. 80558-02  
**Size XL (9-10)** · Art. 80558-03

### Latex gloves

**Size S (6-7)** · Art. 80559-00
