

zetPutz®

Paper wipes and nonwoven wipes

50 YEARS

Effective cleaning,
care and polishing

Multiclean® – the blue roll

The standard in many shops: Whether you use the wall dispenser or floor stand – the durable **Multiclean®** rolls are always ready to hand when you need to clean surfaces thoroughly. They are suitable for machine maintenance in industrial and skilled trade applications. Whenever high effectiveness and safety are required, high-volume **Multiclean®** wipe rolls are the right choice for cleaning up metal filings.

Multiclean® blue wipes are available in premium tissue quality and also as cellulose.

Description	Layers		L x W cm	Sheets	PU	Pallet	Art.
Multiclean® with point-to-point embossing							
Paper wipe roll, blue	3-ply		36 x 38	1.000	1	30 rolls	11452

Paper wipe roll, blue	2-ply		36 x 22	500	2	108 rolls (54 x 2)	11224

For compatible floor stands and wall dispensers, see page 14.

Point-to-point embossing

In a new manufacturing process, the single layers of the cellulose wipe are bonded together at numerous points over the entire surface. In this way, the layers unite to create a wipe that is extremely tear resistant. This process combines the advantage of a thick wipe (high stability) with a multi-layer wipe (high absorbency).

Try it yourself! It is almost impossible to separate the layers.

White paper wipe rolls

The cost-effective alternative for cleaning, maintenance and care. These cellulose wipes are often used in the food processing industry and in labs. They are absorbent and tear resistant. The recycled version is ideal for use in industrial and skilled trade applications.

Multizell®

These natural coloured multi-purpose wipes are always the whenever something needs to be wiped up or wiped off. The low-priced, highly absorbent and low linting **Multizell** wipes are made of 100% recycled material and are suitable for cleaning up any type of impurities. They should always be supplied in car repair shops and in health care facilities.

Description	Layers		L x W cm	Sheets	PU	Pallet	Art.

zetPutz® paper wipes / paper wipe rolls

Multisoft® for care experts

Sensitive surfaces require special care. The extra soft, low linting **Multisoft®** special wipes are the first choice for care and polishing of surfaces. They absorb and dispense liquids such as cleansing milk or polishes without losing their stability.

Description	Layers	L x W cm	Sheets	PU	Pallet	Art.
Multisoft® Air, extra soft, highly absorbent

Polishing and cleaning wipe roll, white		38 x 30	475	1	48 rolls	11801-01

Multitex® - the multi-purpose wipe

The tremendous strength of the high-quality textile-like nonwovens makes them ideal for wet and dry cleaning. They are very soft yet low-linting, and can absorb large quantities of liquids; they are tear-resistant, solvent-resistant and food-safe. Especially suitable for regular use in sensitive work areas.

Viscose

Viscose fibres are industrially produced on the basis of cellulose material. The chemical composition of this "natural synthetic fibre" is similar to that of cotton. Because of their textile character, viscose products are absorbent, flexible and durable.

Description		L x W cm	Sheets	PU	Pallet	Art.
Multitex®, soft, extremely tear resistant, absorbent						
Cleaning wipes, white		38 x 34	400	1	42 boxes (à 10 x 40)	10149-00

For compatible floor stands and wall dispensers, see page 14.

zetPutz® cleaning wipes / cleaning wipe rolls

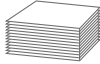

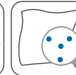

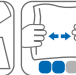

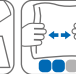

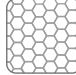

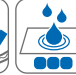

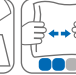

Multitex® – the versatile wipe with the “z”

Our basic “z” product, **Multitex® Ultra z 60**, can be used wherever greasy residue and liquid need to be absorbed. The material is long-lasting even when used on rough surfaces, and does not tear or lint.

The **Multitex® Ultra z 70** wipe features more material with a higher absorption volume. This allows the material to absorb more liquid without tearing.

Multitex® Premium z 80 wipes are quite similar to textile wipes. Depending on the particular use, the life of the wipe will vary.

Description	L x W cm	Sheets	PU	Pallet	Art.
Multitex® Ultra z 60, tear resistant, absorbent					
Cleaning wipes, white 	33 x 32	500	1	75 boxes (à 10 x 50)	10142-60W
Cleaning wipe roll, white 	38 x 30	500	1	66 rolls	11142-60

Cleaning wipe roll, white 	34 x 32	475	1	48 rolls	11142-80W
Cleaning wipe roll, blue 	34 x 32	475	1	48 rolls	11142-80B
        					

Unitex® – the robust disposable wipe

Tear-resistant and low-linting **Unitex®** cleaning wipes are ideal for cleaning and degreasing surfaces, for example in preparation for painting (in combination with cleaning agents such as silicone remover, water-based cleaners or water).

They are solvent-resistant and silicone-free, which makes them ideal for use with 2-pack lacquers and water-based paints.

Description	L x W cm	Sheets	PU	Pallet	Art.
Unitex®, extremely tear resistant, highly absorbent					
Cleaning wipes, turquoise 	38 x 30	200	1	156 boxes (à 4 x 50)	10148-01
Cleaning wipe roll, turquoise 	39 x 32,5	500	1	78 rolls	11148-01
					

Polytex® – the solvent-resistant wet wipe

Robust and low-linting **Polytex®** wipes are a clean and economical alternative for many applications. The robust wipes are even suitable for removing stubborn residue, especially since they are resistant to solvents and are washable.

Because they are food safe, **Polytex®** wipes – made of 100% polypropylene – are used for wet wiping in industrial kitchens and the food industry. But employees in auto repair shops and paint shops also appreciate the highly absorbent, silicone-free product.

Description	L x W cm	Sheets	PU	Pallet	Art.
Polytex®, absorbent, abrasive					
Wet wipes, blue 	40 x 42	420	1	36 boxes (à 12 x 35)	10171-00

For compatible floor stands and wall dispensers, see page 14.

Wiper Bowl® dispenser bucket – couldn't be more practical.

Extremely powerful cleaning for hands, tools, machines and surfaces

The wipes from the **zetClean®** product range, impregnated with a special cleaning liquid, are indispensable for guaranteeing cleanliness of all materials and surfaces at virtually every workplace, in the shop or machine park. Especially suitable for workplaces where water is not immediately available for cleaning.

The wet wipes are packaged in the convenient resealable **Wiper Bowl®** dispenser bucket. This prevents the cleaning substances from drying out so they retain their effectiveness for a very long time. Wet cleaning wipes – whether **Polytex®** wipes, consisting entirely of very robust and low-linting polypropylene, or soft, extremely tear-resistant textile-like **Multitex®** viscose wipes – clean and degrease in one step.

Wiper Bowl® Polytex® in dispenser bucket

- Polypropylene wipe impregnated with gentle cleaning substance
- Very robust and low linting
- Solvent-resistant and silicone-free
- Pleasant fresh orange scent
- Especially skin-friendly thanks to vitamin E and aloe vera
- No harmful complexing agents
- No aggressive solvents
- Removes grease, tar, carbon, glue residue, ink, wax, etc.

72 moist cleaning wipes, 25 x 25 cm, polypropylene

PU = 6 buckets, pallet = 264 buckets (44 x 6)

• Art. 50130-001

Wiper Bowl® Polytex® 70/30 in dispenser bucket

- Polypropylene wipe impregnated with powerful isopropanol solution
- Very robust and low linting
- Solvent-resistant and silicone-free
- No harmful complexing agents
- For hygienic cleaning and degreasing of smooth surfaces

72 moist cleaning wipes, 25 x 25 cm, polypropylene

PU = 6 buckets, pallet = 264 buckets (44 x 6)

• Art. 50130-012

Low linting and robust

NEW

Wiper Bowl® abrasive

- Versatile wipe with different sides for abrading and removing stubborn residue on various surfaces
- Especially skin-friendly thanks to vitamin E and aloe vera

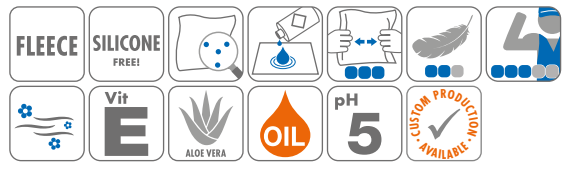

72 moist cleaning wipes, 25 x 25 cm, viscose
PU = 6 buckets, PU/pallet = 264 buckets (44 x 6)
 • Art. 50144-000

Wiper Bowl® Multitex® in dispenser bucket

- Textile-like viscose wipe soaked in gentle cleaning substance
- Extremely tear-resistant, robust and low-linting
- Solvent-resistant and silicone-free
- Pleasant fresh orange scent
- Especially skin-friendly thanks to vitamin E and aloe vera
- No harmful complexing agents
- No aggressive solvents
- Removes grease, tar, carbon, glue residue, ink, wax, etc.

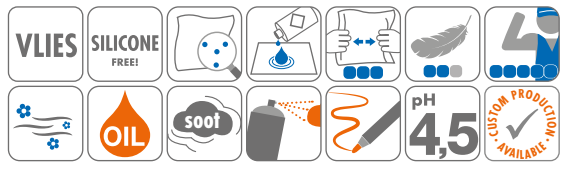

72 moist cleaning wipes, 25 x 25 cm, viscose
PU = 6 buckets, PU/pallet = 264 buckets (44 x 6)
 • Art. 50132-000

Wiper Bowl® Magic Power Wipes in dispenser bucket

- Textile-like viscose wipe impregnated with highly effective cleaning substance
- Extremely tear-resistant, robust and low-linting
- Solvent-resistant and silicone-free
- No harmful complexing agents
- No aggressive solvents
- Extra power for stubborn smears and residue (graffiti, permanent marker, paints, printing ink, etc.)

72 moist cleaning wipes, 25 x 25 cm, viscose
PU = 6 buckets, PU/pallet = 264 buckets (44 x 6)
 • Art. 50134-000

Soft and extremely tear resistant

Wet wipe dispenser system for disinfection and cleaning

Tear-resistant, highly absorbent and low-linting **Multitex®** wipes from the dispenser bucket offer consistent, hygienic quality. The tear-off perforation makes it easy to remove single sheets.

Fill the dispenser bucket as needed with a ready-to-use application solution or liquid cleaner of your choice. The resealable lid keeps the impregnated wet wipes from drying out and protects them against external influences such as dirt and dust.

Clean and disinfect the bucket before each reuse.

Chemo-thermal reconditioning or manual wiping disinfection is possible.

Description	L x W cm	Sheets	PU	Pallet	Art.
Multitex® Wipes roll DR Nonwoven wipe roll, for disinfection and cleaning

Wipe instead of spray

- High standard of hygiene for daily disinfection and cleaning
- Reduces amount of disinfectant used
- Confirmed compatibility with disinfectants according to VAH specifications
- **Multitex®** wipes are made of 100 % PET – for maximum release of the active substance concentration of disinfectants
- Writeable batch label for overview of all relevant content information
- No aerosol formation

For tough jobs

Cleaning rags

In repair shops and production plants, it is often necessary to remove impurities effectively. Highly absorbent cleaning rags are an economical alternative. The recycled textiles are available from ZVG® in various qualities. Our cleaning rags made from recycled textiles are free of buttons, hooks, eyelets and zips.

Nonwoven wipes

Absorbent special cotton-based fabric for universal cleaning and maintenance work.

Covering fleece

Special absorbent fabric is ideal for universal protection of surfaces during renovation and maintenance. The non-slip polyethylene coating ensures a reliable grip and prevents liquids from seeping through.

Absorbent cloths

zetSorb® oil absorbent cloths are ideal for dust-free absorption of heavy and light oils, fuels and other chemicals, as well as numerous non-water-soluble substances. The eco-friendly nonwoven material absorbs many times its own weight, is heat-resistant and fully buoyant.

Whether for drilling emulsions, cooling water or even contaminated liquids – zetSorb® universal absorbent cloths absorb everything. Oily and aqueous substances are bound simultaneously and equally.

Economical cleaning aids

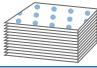

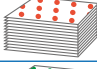

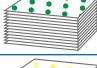

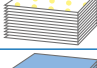

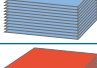

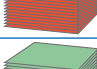

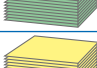

Industrial microfibre wipes are suitable for streak-free cleaning of all smooth surfaces (plastic, glass, stainless steel, wood, etc.). The machine-washable wipes (up to 95 °C, without fabric softener) often remove stubborn residue without the use of cleaners.

Nonwoven all-purpose wipes quickly absorb large amounts of liquid. The **zetPutz®** range also includes universal wipes, sponges and dish wipes for cleaning.

Customized solutions ...

Do you require specially cut robot protection covers in your company?
 Do you need cleaning wipes in custom formats?
 Do you want to stand out from the crowd with your own design?
 There are (almost) no limits to customer requirements at ZVG®.

In our in-house sewing department, the raw materials are processed in multiple steps for fast and easy implementation of individual requirements: whether you need specially cut sizes, custom lettering or labelling.

- Custom design
- Custom sizes
- Special packaging
- Individual solutions

We will be glad to make you an offer with no obligation.
